“ My memories of this now deceased person ,were always filled with negative feelings, cruel statements, hateful ideations and years of shift-blaming. The David Guidry that I encountered, was selfish, a pathological liar, was never present as a father, a thief, a mental, physical emotional and psychological abuser of women, a parasite, a user, a leech, a pimp, a cheating alcoholic-substance-and drug addicted abuser, and a poor excuse of a human being. David Joseph Guidry hid behind God for convenience, was dishonest, was dishonorably discharged from the military and chose to live life in an element of chaos, and It was so easy for him to cloak his character while throwing a rock and then hiding his hands.

*If this person was a man, he could have chosen to be present in his child's life , be a positive role-model and support the life he helped create. This shell of a person cared more for his dogs than his own family, the people that cared for him, the people that surrounded him and the people who supported him.*

*My memory of him was a nightmare. Because this person did not donate anything useful, any positive advice, any crucial information that could have helped mold the life he helped create, I, as his adult child leave him with the same void as he left me, which is nothing.*

*I will acknowledge one thing, I'm so grateful for my enriched life. The unconditional love I've received from the honorable women that provided me with the necessary nuggets of a firm foundation. I understand the shield they surrounded me to protect me from the lies, the toxic environment and the "nightmare" of which you became. Thank you for not wanting to establish a relationship, you did me a favor. Goodbye!!*
