“ My best friend my husband ... it's almost been a year since you left this world and me..oh how I miss you... I am lost without you..you are in my every thought every day... I was blessed to go thru 22 years of my life with you...and to experience true love and commitment...thru good and bad and the horrible loss of chance, colt and cici we were each others strength.... I miss you so much it hurts....how I wish we had more time and I could hear your voice and listen to your stories.. part of mthe adventurers we had together will always be in my heart and mind...the thought of them will help me get thru this world until I meet up with you . For now I will try to continue thru life with a great pain and loss in my heart...I know you are with our children cici ,colt , and chance.... yall please watch over me ...until I am with you know my love for you will never die.....ETERNITY my love...love your wife Rachel Ribbeck George....p.s. miracles and count on me

.....
